

Perspectives on stratified medicine - invited session at RSS Conference

Tuesday 8th September 2015

The BIR have organised an invited session at the RSS Conference in Exeter on 8th September. The topic is 'Perspectives on Stratified Medicine' and the session is on the same day as the Presidents Invited Lecture by Scott Zeger on 'Statistical Problems in Individualized Health'.

Session program: Introduction to Stratified Medicine by Brian Tom and Daniel Jackson (MRC-BSU, Cambridge); Statistical Regulation in Stratified Medicine by Deborah Ashby (Imperial); Industry Aspects of Stratified Medicine by John Whittaker (GlaxoSmithKline); Methodology in Stratified Medicine by Frank Dondelinger (MRC-BSU Cambridge).

Reduced fees for single day registration should be available for BIR members. Registration and further information on the conference will become available from the RSS website: www.rss.org.uk/RSS/Events/Conference/2015_conference.aspx

Programme

- **Introduction to Stratified Medicine (Dan Jackson)**
- **High-dimensional statistical approaches for molecular data in cancer medicine (Frank Dondelinger)**
- **Pharmacogenetics (John Whittaker)**
- **Statistical Regulation in Stratified Medicine (Deborah Ashby)**
